Holiday Homework

Class: 6ᵗʰ   **Session: 2020-21**

Subject: Mathamatics

S

Homework is divided into 3 sections

Section	Matter of section	Marks
A	1. 50% of Assignment i.e. 20marks 2. Tables i.e. 10 marks 3. Note book i.e. 10 marks	40
B	Activity	30
C	Test	30

Section A		
1. Do this assignment on your maths Notebook.		
Sr. no.	**Questions**	**Marks**
Ques1	Write Roman Numeral for 95	**1**
Ques2	Convert LXXXVI into hundred Arabic Numeral	**1**
Ques3	Write the successor of 46539	**1**
Ques4	Write the predecessor of 338000	**1**
Ques5	Compare 10899 _____ 10799	**1**
Ques6	Write the number name of 9993 and draw it on abacus	**1**
Ques7	Solve and write the result in roman Numeral 32+67-10	**1**
Ques8	Solve 8×125×6 by re-arranging the number	**1**
Ques9	Write the smallest 9 digit number	**1**
Ques10	Write the predecessor of 10855	**1**
Ques11	Arrange the following number in ascending order :- 3951,1024,947,34,123456	**2**
Ques12	Write the next three successor of 647999	**2**
Ques13	Form the greatest 7 digit number using 3,8,9 (Digit may repeat)	**2**
Ques14	Write the number name of 491603 in Indian system numerals	**2**
Ques15	Solve : 20-3[7-{2+(2-0)}]	**2**
Ques16	Write the smallest 6 digit number using 6,7,0 digit may repeat	**2**
Ques17	Multiply 999×352 using distributive property	**3**
Ques18	Divide and check your answer 2781 ÷ 35	**3**
Ques19	Solve 1562 ×176-1562×75-1562×1 using distributive property	**3**
Ques20	If in a school, number of students is 5637 if 142 took admission during the next year find the total number of students in the school .	**3**
Ques21	Subtract and check your answer 75691-45512	**3**
Ques22	Find the value _____ using distributive property . 125×8X883+117×25×40	**3**

2.	Write tables from 1 to 20 (10 times)and learn	10
3.	Complete notebook of Ch 1 that we done already	10

Section B

Activity	Write the year of birth of your family member , relative and friends (any15) in roman Numeral and Indian Number System Numeral					30

Sr. No.	Name	Year of Birth	Indian Number system	Roman Numeral
01	Abhi	1970	One Thousand Nine Hundred Seventy	MCMLXX
02				
03				
04				
05				

Section C

2 tests 15 marks each

Test 1	chapter 1 WS 1, 2, 3	15
Test 2	Chapter 1 WS 4, 5, 6, 9	15

SGJ DAV Senior Secondary Public School, Haripura

Holiday Homework

Class: 6ᵗʰ   **Session: 2020-21**

Subject: Science

The whole work is divided into following parts:-

1. **Written work(Assignments or worksheet)**   **40 marks**

2. **Activities and projects**   **40 marks**

3. **Objective type test**   **20 marks**

   NOTE:-

1. **Activity and project should be completed by staying at home, no need to go outside anywhere. You should use only those things and equipment's that are usually found at your homes. (For example if you don't have colors then you can use only your pen or pencil, no need to go outside, stay at your home, stay safe)**

Students have to write the answers of following question in their note books.(40 marks)

Chapter= 1. Our Environment

1. How does decomposition of dead animals turn out to be useful?
2. Why is Rain water harvesting a ray of hope for overcoming the present scarcity of water in cities?
3. Why do buffaloes cool themselves in water during summer?
4. Draw a diagram that shows the relationship between the biotic and the abiotic components of the e Why should we segregate different types of wastes?
5. Write the meaning of the term vermicomposting Which component of air gets used up' during the process of photosynthesis
6. Suggest any tive activities that can help to save the environment
7. How does nature maintain a balance between the amount of oxygen and carbon dioxide in the atmosphere?
8. Distinguish between-

   (a) autotrophs and heterotrophs

   (b) decomposers and scavengers

Chapter-Nature of Matter

1. Define the following:

   (a) Natural materials   (b) Transparent materials

2. Name any three materials that are (1) transparent (ii) opaque in nature.
3. Which state of matter (i) can (ii) cannot easily change its shape and volume why?
4. Why do materials diffuse into each other?
5. Define the term solubility'. How does it change on increasing the temperature of water?
6. Name three materials that are (1) soluble (2) insoluble in water.
7. Why do solids have a fixed shape and a definite volume?
8. Briefly describe an activity to show that pure water is a transparent liquid.
9. What is a 'saturated solution? How can one prepare a saturated solution of common salt in water?
10. Suggest one activity to show the effect of temperature on the solubility of a solid in water.

2. **Here are the 2 activities and 2 projects given below, you have to write your the observations, record and calculations on your note books.**

   <u>Activity1</u>. Find some substances which are soluble and insoluble in water.

   <u>Activity 2.</u> Around your surrounding enlist some substances which are transparent, translucent and opaque with the help of light.

   Complete your projects and note down the steps on your note books.

   <u>Project 1.</u> Make a covering mask at home .Write its benefit and procedure also.

   <u>Project 2.</u> As you know our country is under lockdown. Therefore we noticed huge change in environment as air and water both are in there purest form. What is the reason behind this change? Give your ideas how we can maintain the quality if air and water after lockdown.

3. **Objective type test**

   Test will be from above mentioned 2 chapters. And test will be given you later in your whatsapp groups.

Holiday Homework

Class: 6ᵗʰ   **Session: 2020-21**

Subject: Social Science

General Instructions
Weightage: 100 Marks - The Home Work is divided into three Sections
(35 of written work, 35 of activities or project work, 30 Marks of weekly test)
Do the following questions on your notebook in the form of points.

Chapter 1st   (The Planet Earth and The Solar System)

Define and explain the given words
*universe
* Galaxy
* Milky Way
*light year
* Nebula
* solar system
* planet
* satellite
* asteroid
*meteor
* Astronomers
* cluster
* gravitational force

1Q Name the members of the solar system.

2Q What do the space scientists and astronomers used to study the celestial bodies?

3Q From where do the planets get light and heat?

4Q Name the planets which are made up of solid material?

5Q what time does the Earth take to complete one revolution around the sun?

6Q name the two planets which don't have any satellite.

7Q define meteors. Write three points about them.

8Q mention three characteristics satellites.

9Q write short notes of the following-
   a) The Sun
   b) The Moon
   c) Galaxy

Q10 What do you know about the evolution of the solar system?

 Activities

1) When was Mars Mission launched by India? What are its achievements and why it is so important for us?

2) Draw a diagram showing the planets of the solar system in their orbits around the sun.

CHAPTER 2   Representation of the Earth
Explain the word meanings
● Globe

- Map
- Cartography
- Scale
- Direction
- thematic map
- political map
- physical map
- Atlas

1Q   Ancient maps were mere sketches. How?

2Q   Mention any two features of the computer generated map.

3Q   Define compass? Write in brief about it.

4Q   Define plan. What is the only difference between a map and a plan?

5Q   State any five uses of a map.

6Q   State Why do we use symbols in a map?

7Q   Give the main demerits of a map as compare to a globe.

8Q   Describe the main components of a map?

9Q   Differentiate between the globe and a map.

10Q Define an atlas.

2)   Label all the states with their capitals on a political map of India.

3)   Prepare a sketch of the route from your house to your school showing some landmarks on   the way and mention the direction also.

Chapter - 3   (Locating Places On The Earth)

Explain the words with their meanings

- Equator
- Northern hemisphere
- Southern hemisphere
- Latitudes
- Longitudes
- Grid
- Variation

1Q. Besides the equator and two poles, there are four important lines of latitude. Describe them.

2Q. Describe the different heat zones existing on the earth.

3Q. How do latitudes and longitudes help in locating places On the earth?

4Q. Define lines of longitudes. mention two characteristics of the lines of longitude.

5Q. Differentiate between local time and Standard Time.

Activities

1) Draw a labelled Diagram of grids parallels and meridian.

2) In your notebook draw the diagram of heat zones showing the values of different latitudes.

3) On the outline map of world Show--

1.   Equator

2.   Tropic of Cancer

3.   Tropic of Capricorn

4.   Prime Meridian

Note - You can draw the map with your own hands if you don't have.
