## Social Science

View points: The invention of writing changed the life of man in many ways. It helped people record ideas, messages, and important information for future use. Writing made learning and sharing knowledge easier. A letter is better than a telephone because it can be read again and kept as a record. Letters can be sent to faraway places and give detailed information.

## Homework Questions

Q.1 How did the invention of writing change the life of man?

Q.2 How is a letter better than a telephone?
